

PATENT

Atty. Dkt. No. 03493.86913 (ATT/112518CON)

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. - 31. (Canceled).

32. (Currently amended) A network comprising:

customer premises equipment;

a ~~fast packet~~ frame relay switch coupled to the customer premises equipment with at least one permanent virtual circuit and receiving a plurality of frame relay data packets, the ~~fast packet~~ frame relay switch ~~including address translation circuitry~~ for translating user data within at least one of the frame relay data packets into a fast packet address;

wherein the ~~translation circuitry~~ frame relay switch is responsive to a plurality of different service categories and configured to determine a quality of service responsive to layer 4 data.

33. (Canceled)

34. (Currently amended) The network of claim 32 wherein the frame relay switch ~~translation circuitry~~ is responsive to Internet protocol (IP) data within the frame relay data packets.

35. (Currently amended) The network of claim 34 wherein the frame relay switch ~~translation circuitry~~ is responsive to layer 3 Internet protocol (IP) data.

36.-79. (Canceled)
